

# Can you help us with our research?

## Who are we?

We are a team of **researchers at Newcastle University**, interested in finding out more about family planning, pregnancy, and raising children for people with Myalgic encephalomyelitis (encephalopathy)/chronic fatigue syndrome (ME/CFS)

## What are we asking?

We are inviting **health professionals in the United Kingdom** to take part in an **online survey** exploring the support provided to people with ME/CFS around family planning, pregnancy and raising children. There will also be the **opportunity to take part in an interview** exploring your thoughts, and experiences in more detail.

## Who can take part?

You can take part if you are a health professional who supports people around family planning, pregnancy, birth, and raising children OR you work specifically with people who have ME/CFS

## How can I help

If you'd be happy to contribute your thoughts and experiences, you can find out more about the study, provide your consent to take part, and complete the online survey here: <https://bit.ly/3VW7bNj>.

Within the survey, there is also the opportunity to express your interest in taking part in an interview.
